

SANTA'S HELPERS

*Come start the holidays off
right here at DSU's
K-12 STEM Outreach Center*

Drop in and make gifts for you friends and family throughout the entire month of December!

Projects range from 3D printing to laser cutting and everything in between.

Come learn how to use our equipment while making custom gifts that will get everyone talking.

Prices of the projects will vary, but our equipment is free to use. Be sure to come fast because it is first come first served to use it.

For more information,
